AdventHealth	212 Eslinger Way, Sanford, FL 32773	Non-Profit	Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act	Substance Abuse and Mental Health Services Administration/Health Surveillance and Program Support	\$400,000	Hope and Healing Center	The Hope & Healing Center, located in Sanford, is one element of a broader partnership between AdventHealth, the Seminole County Sheriff's Office, Seminole County EMS/Fire Rescue, and others. It provides a comprehensive array of services and support to individuals struggling with opioid addiction, especially low-income individuals and individuals who have no insurance or who are underinsured. The Center, which began operations this year, offers intensive outpatient and inpatient services, including individual and group counseling; substance-related and recovery-focused education; reflection and spiritual healing groups; and career assistance. Funding will be used to increase access to services by reducing out-of-pocket expenses for uninsured patients.	Hyperlink
City of Orlando	400 S. Orange Ave., 3rd Floor, Orlando, FL 32801	Local Government	Commerce, Justice, Science, and Related Agencies Appropriations Act	Department of Justice/Byrne Memorial Justice Assistance Grant (Byrne JAG)	\$1,200,000	Orlando Police Department Next Generation Enhanced Body-Worn Cameras	The City of Orlando would use this funding to purchase body worn cameras for the Orlando Police Department to enhance police effectiveness, officer and citizen safety, and police transparency and accountability. The cameras that would be purchased include the latest in auto-activation technology, which is tied to both firearm and taser holsters, to ensure the most critical incidents are captured from start to finish. This automatic "turn on" feature allows officers to focus on the immediate action in front of them without needing to push a button to record the situation.	Hyperlink
City of Oviedo	400 Alexandria Boulevard, Oviedo, FL 32765	Local Government	Department of the Interior, Environment, and Related Agencies Appropriations Act	Environmental Protection Agency/State and Tribal Assistance Grants (STAG)	\$900,000	Percolation Pond Decommissioning - Phase 1 Tank Demolition/Construction	The City of Oviedo would use this funding to demolish an existing 1.5 million gallon reclaimed water ground storage tank and to replace it with a 2.0 million gallon tank at the Oviedo Water Reclamation Facility. This is part of phase one of a four-phase plan to complete the decommissioning of percolation ponds that the City uses to dispose of non-public access effluent and wet weather storage. By completing this project, and the additional phases required to decommission the percolation ponds, the City of Oviedo will modernize its wastewater reuse system, increasing the amount of reclaimed water available to City residents and decreasing the amount of potable water usage in the City. Orange County	201 S Rosalind Ave Orlando, FL 32801	Local Government	Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act	Department of Health and Human Services/Health Resources and Services Administration (HRSA)	\$300,000	Parent Child Interaction Therapy Certified Trainers for Youth Mental Health	Orange County would use this funding to support a one-year training and credentialing program for 28 trainers in Parent Child Interaction Therapy (PCIT), an evidence-based, short-term treatment for young children (ages 2-7) with emotional and behavioral disorders and their caregivers. Currently, Orange County has limited resources to support early childhood behavioral health needs, and the County has no therapists trained and certified in PCIT or any other early childhood therapeutic evidence-based practice. This funding would enable the trainers to assist families and to train additional clinicians in this treatment model. This funding will support the provision of services to approximately 700 children and their families in the first year of funding.	Hyperlink
26Health	801 North Magnolia Ave #402, Orlando, FL 32803	Non-Profit	Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act	Department of Health and Human Services/Health Resources and Services Administration (HRSA)	\$250,000	Health Center Mammogram Machine	26Health, a non-profit organization, would use this funding to purchase a mammogram machine for its primary care medical clinic to increase the number of women (especially from the LGBTQ+ community) who receive regular screenings. The mammogram machine will allow 26Health to provide no-cost or low-cost mammograms to women in the HRSA-recommended screening age (40 to 74) to prevent and detect breast cancer and to improve health outcomes in Central Florida. Sanford Housing Authority	120 Lexington Green Lane, Sanford, FL 32771	Local Government	Transportation, Housing and Urban Development, and Related Agencies Appropriations Act	Department of Housing and Urban Development/Economic Development Initiative (EDI)	\$258,300	Sanford Housing Authority Resource Center (SHARC)	The Sanford Housing Authority (SHA) would use this funding to complete construction of a new administrative office building on the former Lake Monroe Terrace public housing site (the new Monroe Landings) in the Historic Goldsboro neighborhood, which will enable the SHA to provide better services to low-income individuals in the community. As background, in 2010, the Orlando Housing Authority entered into a temporary agreement with SHA to manage SHA's operations. In 2014, SHA demolished all of its public housing and the SHA administrative building. Despite a search for office space, no suitable space in the community was identified. In 2017, SHA leased office space outside of the Goldsboro neighborhood. While the space is functional, it puts a burden on the SHA's limited budget. A new SHA administrative building will be more cost-effective, will enable SHA to provide better housing-related services, will offer convenient and stable access to residents of newly-developed affordable housing and former SHA residents, and will re-establish SHA's presence within the Goldsboro community. Seminole County	110 East 1st Street, Sanford, FL 32771	Local Government	Department of the Interior, Environment, and Related Agencies Appropriations Act	Environmental Protection Agency/State and Tribal Assistance Grants (STAG)	\$688,000	Little Wekiva River Restoration Project	The Little Wekiva River, located on the west side of Seminole County, has recently had severe erosion and sedimentation problems. Its depth has rapidly decreased and it is scarcely navigable by canoe or kayak anymore. Seminole County is proposing a multi-agency, multi-jurisdictional Clean Water SRF restoration project that will begin north of Springs Landing Bridge and end south of State Road 46 downstream of the confluence of the Big and Little Wekiva Rivers. The requested funding will be used to help restore the Little Wekiva River, including removing deposited sediment, re-contouring historic meanders, and replanting with beneficial native plant species. This restoration effort will restore the dynamic ecosystem within the riverine system, improve the native habitat, enhance flow, reduce potential flooding of residential, commercial and municipal property, and contribute to improved water quality in the Little Wekiva River. Seminole State College	100 Weldon Blvd, Sanford, FL 32773	Public College in the Florida College System	Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act	Department of Education/Higher Education	\$475,000	EMS and Allied Health Programs' Equipment Purchase	Seminole State College would use this funding to purchase state-of-the-art simulation laboratory equipment for its Emergency Medical Services and Respiratory Care programs so students can better prepare for health care and first-responder careers. Access to this equipment (and related software) will help students obtain jobs and reduce orientation time once a student obtains a position. The equipment will also allow for adherence to social distancing requirements and simulate realistic scenarios for treatment of COVID-19 patients. Equipment that would be purchased with this funding includes: Ventilator demonstration respiratory care system, Ventriloscope LIVE training system, portable pulse oximeter, bedside pulse oximeter, sphygmomanometers, three SimMan ALS Manikin systems, a SimMan 3G Trauma Manikin system, a simulation-based training ambulance, a training defibrillator, and updated software for simulation scenarios. University of Central Florida	Millican Hall, 4364 Andromeda Loop North, Orlando, FL 32816.	Public Research University in the State University System of Florida	Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act	Department of Education/Higher Education	\$500,000	Promoting Long-Term Success Through Early Education and Parental Support	The University of Central Florida would use this funding to support a comprehensive package of innovative programs that assist children and families in marginalized communities, with the goal of promoting early childhood and post-secondary education access and success. In collaboration with culturally competent partners, UCF would use this funding to support three programs: (1) a Voluntary Pre-Kindergarten program that will enable 4-year-olds to receive kindergarten preparation for three hours a day; (2) establishment of a STEAM-focused indoor play space as an education hub for families in Orlando's historically underserved region, with funds being used to purchase supplies, equipment, and materials; and (3) the formation of the Parent Dream Academy, an 8-week course to strengthen family, school, community, and university partnerships to promote student success, improve parents' ability to support their students through transitions to post-secondary education, and to help families make informed post-secondary choices.
