Improving lives affected by schizophrenia-related disorders

The Honorable Tim Murphy, Ph.D.
U.S. House of Representatives
2332 Rayburn House Office Building
Washington, D.C. 20515

Dear Representative Murphy:

We applaud you and are extremely grateful for your reintroducing the “Helping Families in Mental Health Crisis Act” in the 2015 edition, H.R. 2646. Your commitment and passion to serve the most seriously psychiatrically ill and their loved ones is vitally important to the entire community. This powerful and comprehensive bill serves the most misunderstood, most discriminated and most underserved of our fellows.

We appreciate your continuing to champion the grossly under served with legislation that will increase the access to treatment of the most vulnerable of our brothers and sisters. Our members include diagnosed individuals, their loved ones, clinicians, professionals and community members. On a daily basis I hear expressions of sincere gratitude for this Act and voices extolling the absolute necessity for its passage.

The Schizophrenia and Related Disorders Alliance of America (SARDAA) without hesitation and enthusiastically supports this legislation and applauds your efforts on behalf of those who are affected by the most severe psychiatric brain disorders.

With sincerest gratitude,

Linda Stalters, MSN
